

Read&Write Quick Start Guide

Read&Write is a powerful set of reading and writing tools that supports the different ways we think, work and learn. Read&Write is available for Windows, Mac, Google Chrome, Microsoft Edge, iPad and Android. **This guide is for the Google Chrome version of it.**

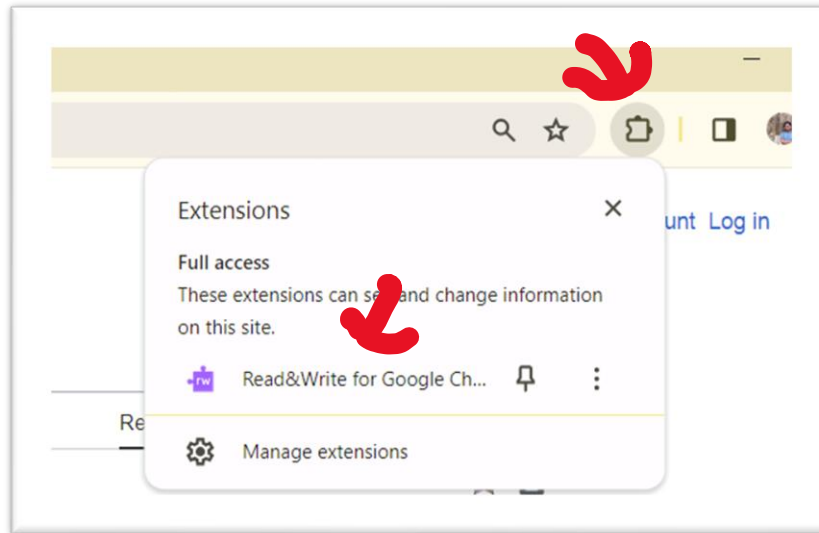

- Go to [Read&Write for Google Chrome](#) and click on **Add to Chrome**.
 - Or go to [Chrome Webstore](#) and Search for Read&Write for Google Chrome and click on **Add to Chrome**.

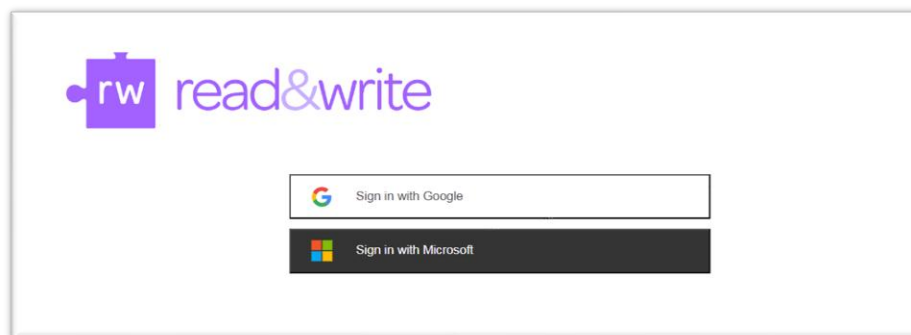

- In the next pop-up window, click on **Add extension**

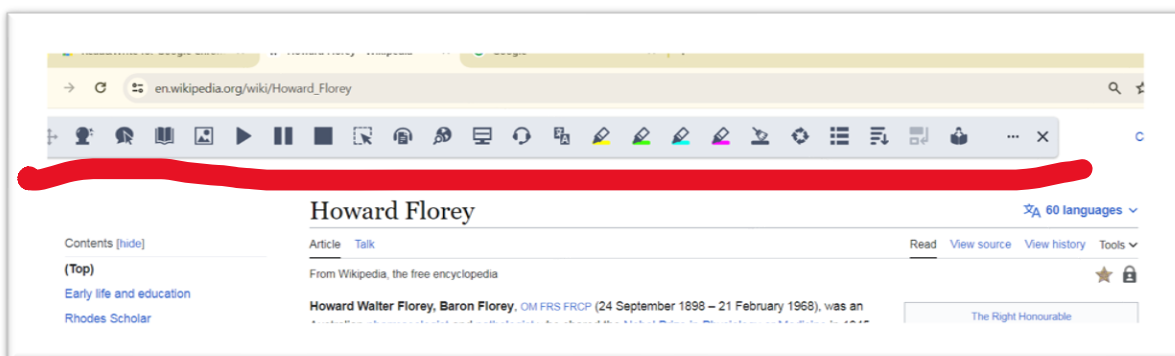

- The extension will be added to your Chrome browser. Now, find the extension by clicking on the puzzle piece-like icon on the upper right side of Chrome and click on the Read&Write extension.

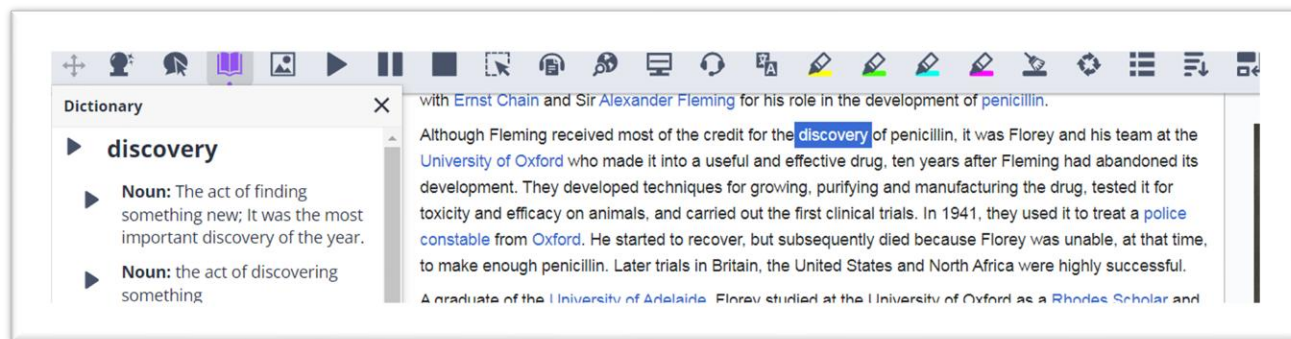

- In the sign-in window that appears, choose either Google or Microsoft account for signing in.

- After providing your account details, it may ask you for permission. **Allow** to proceed.
- You are all set to use it. If you want to use it on a website, find the installed extension from Chrome again like above and Click on it. It will show a toolbar like this:

- Select any text from the website and click on any tools on the toolbar to see the functionality. For example, after selecting the word **discovery** from the webpage, you can click on the **dictionary** tool from the toolbar to get the meaning.

Here is a guide on the different tools and their functions: [Read&Write for Google Chrome - Quick Reference Guide - English Version](#). (As noted in this reference guide, all tools may not work with all websites/documents).
